EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes

and/or additions be unacceptable to applicant, an amendment may be filed as provided by

37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no

later than the payment of the issue fee.

The application has been amended as follows:

Cancel claims 16-22, 27, 28, 44-50, 55 and 56 (The claims have been withdrawn

from consideration, see Response to Restriction Requirement correspondence filed on

11/04/04).

2. The prior art made of record and not relied upon is considered pertinent to

applicant's disclosure. Picciolo et al (US2002/019891) discloses a system including a

plurality of building blocks arranged in a Gram-Schmidt cascaded canceller-type

configuration for generating a filtered output signal. Kleinerman et al (US 6,470,047)

discloses an apparatus for reducing interference in a communication receiver wherein

"the particular interference template and its associated reliability are used to determine

the coefficients for a compensation filter." Ogata et al (US 6,122,332) and Koslov (US

5,867,539) disclose apparatus for reducing impulse noise in digital receivers.

3. The following is an examiner's statement of reasons for allowance:

Prior art of record, taken individually or collectively, fails to disclose an apparatus

or a method thereof "for detecting and correcting non-stationary noise present on an input

data signal that receives the input data signal and produces as output a correction enable

signal, based on the Gram Schmidt orthogonalization, indicating when a correction is required, receives the input data signal and correction enable signal and produces a corrected data signal as output" which further incorporates the process of "receives the corrected data signal and the input data signal and produces an output signal which is the more reliable of the input data signal and the corrected data signal."

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Amanda T Le whose telephone number is (571) 272-3052.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Stephen Chin can be reached on (571) 272-3056. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
